Our 4-Foot Rotisserie Pit Smoker has a grilling surface of six 10" x 46" shelves.* The shelves rotate allowing meat to be smoked slowly with either hardwood or charcoal. As a result, the meat cooks evenly, without the need to flip or rotate meat by hand.

H

Standard Features

- Heavy steel construction
- 100 to 500 degree thermometer
- 1500 degree paint
- 110 Volt - 1 RPM chain driven gearbox
- Large doors for easy access
- 2 sliding drafts for easier fire starting and shutdown
- Full-length firebox to prevent hotspots
- Firebox constructed of 1/4" steel
- Lifetime warranty on firebox and cooking chamber
- Hand made all welded construction
- Cool touch handles
- Smokestack dampers
- All metal shelves in front
- No lip firebox for easy cleanout
- **MADE IN THE USA!**

** Please note that all shelf sizes are approximate. We strive to continually improve our products, therefore some smoker models may be slightly different than pictured.*

Call or email for pricing.

All smokers are custom made per customer needs and requests.

We manufacture our own products in our 24,000 square foot facility in Anderson, Indiana. Using state-of-the-art equipment, certified welders, fabricators, and journeymen electricians produce the unparalleled quality of Southern Yankee Bar-B-Q products.

We are the largest barbecue pit smoker manufacturer in the world. Our pit smokers (both commercial and residential) are smoking the competition!

Southern Yankee Bar-B-Q's pit smoker sets the standard for the highest quality competition pit smoker ever manufactured. Our wood/charcoal burning rotisserie pit smoker has made us one of the leading manufacturers worldwide in the highly competitive BBQ industry.

Rotisserie pit smokers eliminate the need to rotate and flip meat to obtain the same quality on both sides. Available in 4-foot, 6-foot, 8-foot, and 10-foot sizes, the firebox runs the entire length of the smoker which eliminates hot and cold spots.
